

METAL TREATMENT

incorporating THE DROP FORGER

Index to volume 33

January to October 1966

ARTICLES

A

- Aluminium strip rolling at Dolgarrog 395
Application of the NADFS proposals for revision
of B.S. 1718 271
Automatic inclusion counter for steel 243

B

- BISRA's new Tees-side laboratories 261
Blank design for drop forging of hand tools .. 142
Breakthrough in analysis of light elements .. 343

C

- Cast dies and die inserts for drop forging 25
Casting high-speed cutting tools by the Shaw
process 119
CEFF high-speed forging machine 240
Close-tolerance rolling mill 284
Cold extrusion of motor car parts in the U.S.A. .. 101
Cold forging is more economical, four examples in
which 151
Cold forming 345
Continuous tube production 189
Cost comparison of different processes for sinking
impressions in forging dies 2

D

- Dies with increased wear resistance, a steel for .. 253
Dimensional tolerances for steel drop, press and
upset forgings 166

- Dolgarrog, aluminium strip rolling at 395
Drop forging of hand tools, blank design for .. 142

E

- Effects of roll compaction on copper-lead and
copper-lead-tin alloys sintered to mild steel, the 85
Electro-slag refining of steel 317

F

- Ford-Sandusky project, the 102
Forge shop at Sulzer Works, Switzerland 155
Forgeability, an instrumented hot bend test for the
assessment of 292
Forging design, principles of 263, 294
Forging dies, cost comparison of different processes
for sinking impressions in 2
Forging furnaces 322
Forging production seminar 218
Forgings in light alloys 44
Forgings, properties of ferrous 332
Forming of metal at high rates and energies .. 193
Four examples in which cold forging is more
economical 151
Furnace performance, improving forge 374

G

- Giant electron microscopes 320

H

- High-rate forging at the University of Birmingham,
Petro-Forge 36

High-rate forging at Vickers' Newcastle upon Tyne forging and foundry division	22
High-strength tungsten-base alloys	57
Hydrostatic extrusion	75
Hydrostatic forward extrusion	91

I

Improving forge furnace performance	374
Infra-red radiation furnace	269
Instrumented hot bend test for the assessment of forgeability, an	292
Iodine as a metal lubricant	148

L

'Luminous wall' furnace	239
---------------------------------	-----

M

Magnetic forming	71
Materials of ultra-high purity in science and technology	72
Metal forming at the National Engineering Laboratory	212
Multi-specimen creep test machine, a new	311

N

NADFS proposals for revision of B.S. 1718: Part I and Tables	174
NADFS proposals for revision of B.S. 1718: Part II and Tables	219
National Engineering Laboratory, metal forming at the	212
National measurement system of the U.S.A., the	387
North Eastern Gas Board: Research and Development Centre	233

P

Petro-Forge high-rate forging at the University of Birmingham	36
Pioneer of metallurgical education, a	149
Principles of forging design	263, 294
Properties of ferrous forgings	332

S

Scanning electron microscopy	55
Shock thermomechanics	386
Steel for dies with increased wear resistance	253
Study of the isothermal transformations in 17% Cr stainless steels	299, 355, 401

T

Training technicians for the drop forging industry in France	60
--	----

V

Vacuum metallurgical equipment and processes	128
--	-----

W

Walter Somers Ltd., 1866-1966: Centenary of Midlands firm	208
---	-----

Z

Zeiss camera microscope for steel research	354
--	-----

LEADERS

Battle of 1966, the	1
Black Country, the	249
'Eros' in Piccadilly	83
Forging time	127
Metric maze	43
Microscope race, the	331
Steel stakes	291
Tolerances for steel drop forgings	165
Trends in metal forming	207
Weep not for the dinosaur	373

NADFS

Annual convention, 1966	250
President for 1966-67	84
Proposals for revision of B.S. 1718: An introduction to the	166
Proposals for revision of B.S. 1718: Part I and Tables	174
Proposals for revision of B.S. 1718: Part II and Tables	219
Proposals for revision of B.S. 1718: Application of the	271

NEW PLANT

Ballhouse hardening equipment	410
Brinell hardness tester	372
Bronx 200 ton hydraulic trimming press	289
Cold shears — for sectional and rod steel	289
Double-sided single-crank power presses	330
'Dynacarb' analyser, the	410
Fire-resistant hydraulic fluids	126
Hard-facing cobalt-based powders	410
High-density aluminium castings	410
High-nickel casting alloy	330
High-vacuum creep-rupture test furnaces	164
King Brinell hardness tester	126
Low-energy electron diffraction	290
Maraging steel die holders	164
Massey drop stamp at Firth-Derihon	290

New corrosion-resistant free-cutting aluminium alloy	290	Forder, H. P.	206
New hydraulic scrap-baling presses.. .. .	164	Hoskins, K. R.	206
New Wickman press	330	Hyde, E. A.	124
Portable eddy current tester	126	Judge, E. T.	78
Shaw hygrometer control alarm control for drying processes, the	372	Kennedy, Professor A. J.	288
Sintercast announces new technical data file	330	Lewis, K. H.	78
Six new ratings added to temperature indicator line	25	Lord, L. K.	162
Stainless steel enters new fields	330	Morris, H. B.	206
Stanelco electro-gas equipment for metal treatment	126	Newman, Noël P.	288
Wire-drawing machine for fine copper and aluminium wire	289	Peace, J. B.	162
Zirconium corrosion testing kit	372	Peech, A. J.	78
		Perry, H. F. W.	40

PEOPLE
